

The background is a dark green gradient. In the center, there is a large, semi-transparent Bitcoin logo. The logo consists of a yellow circle with a black 'B' and two vertical lines. Above and below the circle, the word 'BITCOIN' is written in a yellow, sans-serif font. Surrounding the central logo are several smaller, solid yellow circles of varying sizes. There are also faint, glowing green lines and patterns that resemble circuitry or data flow, adding a technological feel to the background.

Which is Bitcoin?

Bitcoin was the first digital currency, truly decentralized, that didn't require the intervention of third parties to be able to function properly.

This means that Bitcoin users are not dependent on large companies, central banks, or even governments to move their money.

With Bitcoin, your money truly belongs to you!

Bitcoin was the first cryptocurrency in the world and has been operating since June 2010. This was the first time that Bitcoin was truly valued, and since then it has always worked without any interruption, based on a decentralized and extremely secure network called Blockchain, Created by Satoshi Nakamoto.

Is **Cryptocurrency** Worth It?

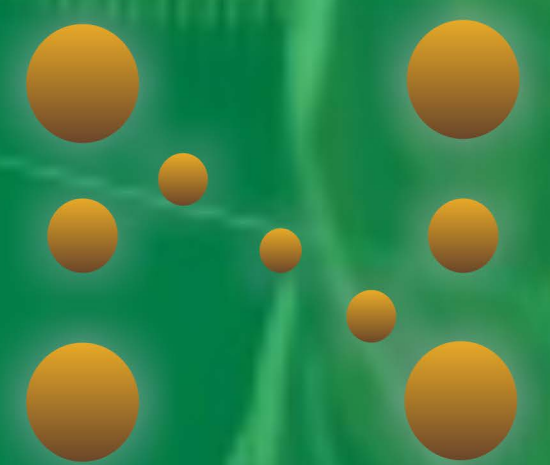

Bitcoin was one of the most valued investments in the world in 2020, jumping from \$7,300 to \$47,000.

In a report released to its clients, Investment Bank JPMorgan stated that Bitcoin has become a rival to gold and that in 2021 it could be traded for up to \$146,000, if it manages to establish itself as a safe asset.

However, More euphoric experts state that 1 Bitcoin will reach the value of \$200,000!

Bitcoin rises above \$46,000 to record after Tesla From Elon Musk buys \$1.5 billion
